7 - NOV 1955

Dear General Cabell:

I wish to acknowledge your letter of 14 October 1955, and to advise that the proposed procedure for the submittal of the Central Intelligence Agency's mobilization requirements for naval personnel is entirely satisfactory to me.

In accordance with your request, the warrant officers who are members of [redacted] will continue to be considered available for mobilization assignment, pending approval of the revised mobilization personnel requirements of the Agency.

It is gratifying to note that mobilization matters of joint interest are approaching a mutually satisfactory conclusion.

Sincerely yours,

Lt. General C.P. Cabell, USAF
Deputy Director

Vice Admiral J. L. Holloway, Jr.
Chief of Naval Personnel
Department of the Navy
Washington 25, D. C.

Dear Admiral Holloway:

By letter of 25 June 1955, I indicated to you that the Central Intelligence Agency would furnish detailed mobilization requirements for Naval personnel on or about 5 September 1955. As the result of recent Ad Hoc Committee meetings between representatives of the Central Intelligence Agency and of the military services, at which you were represented, we have been requested to submit our detailed mobilization requirements through the Department of Defense. These requirements will be submitted on or about 15 November 1955. For your information, our first detailed list closely compares with a list which has been discussed at the working level in your office and this Agency. Further, we are keeping our requirements under constant study, and are informing the Department of Defense that we will be in a position in the future to give prompt response to calls for revision as the services revise their mobilization plan. I trust that this arrangement meets with your approval.

As to the specific questions you raised in your 1 June 1955 letter, current studies of Agency military mobilization requirements indicate a definite need for Naval Warrant Officers (designators 7646 and 8176). It is requested that any change in the current orders of the two Warrant Officers mentioned in your letter be deferred pending submission of detailed Agency mobilization requirements to the Department of Defense. The name of the Chaplain (designator 4105) will be deleted from our mobilization list.

Discussions with various representatives of the military services at the Department of Defense level, as well as informal discussions with representatives of the Bureau of Naval Personnel, have been most informative and beneficial.

Sincerely yours,

SIGNED

C. P. Cabell

MEMORANDUM FOR: GENERAL CABELL

The attached letter for your signature is in reply to Admiral Holloway's letter of 1 June, acknowledging receipt of a list of the CIA Naval Reserve Company members and advising the Admiral that information requested concerning Agency mobilization requirements for Naval personnel should be forthcoming on or about 5 September.

A query concerning three officers with designators which are not within the reserve complement is answered to the effect that clarification is in order and will be accomplished with the development of Agency requirements for Navy personnel.

Your signature is recommended.

MEMORANDUM FOR: THE DEPUTY DIRECTOR

Attached is a letter to Admiral Holloway advising him that detailed mobilization requirements for Naval personnel will be submitted to the Department of Defense approximately 15 Nov 55 in accordance with Ad Hoc Committee agreements. It is pointed out that these requirements compare closely with those discussed by representatives of his office and this Agency at an earlier date.

This letter also advises the Admiral of the status of the 3 Naval Officers whose reserve assignments in CIA the Admiral had questioned in his 1 June letter.

End your signature.

Dear Admiral Holloway:

Your letter of 1 June 1955 requests specific information on categories of Naval personnel required by this Agency in event of mobilization. I anticipate that the Central Intelligence Agency will be able to comply with your request as soon as our current study of mobilization tables of distribution is completed. I have established a target date of 5 September 1955 for completion of this study which I trust will be satisfactory to you.

You also ask specific questions concerning three officers on our 3 March 1955 list having designators at variance with our complement. I agree that clarification of the mobilization status of these three individuals is required but request that any change to their current orders be deferred pending the development of detailed Agency requirements.

Your continued interest in reserve matters of common concern to the Navy and to the Central Intelligence Agency is extremely helpful to me.

Sincerely yours,

MEMORANDUM FOR: Deputy Director of Central Intelligence
THROUGH: Deputy Director (Support)
SUBJECT: CIA Requirements for Naval Reservists
REFERENCE: Letter from Chief, Nav. Pers. to DDCI,
dated 1 June 1955

1. Recommend that attached letter be forwarded to Admiral Holloway. The 5 September 1955 date is the same as that extended to us by the Army for submission of similar data.

2. The three "phantoms" referred to are legitimate members of the Navy who have Navy orders thereto. In one case the CIA employment is sensitive, and my solution is that this officer, a chaplain, request individually a change of designator more appropriate to CIA purposes. I am asking the Commanding Officer of the [redacted] to take action accordingly.

IN REPLY REFER TO
Pers-B1116/rbb

JUN 1 1955

CONFIDENTIAL

Dear General Cabell:

I refer to your letter of 3 March 1955 and its enclosed list of members of Volunteer Naval Reserve [redacted] who are now available for Navy mobilization assignments, and thereby eligible for active duty for training in the Navy, subject to eligibility of individuals under established criteria.

25X1

The information contained in the list enclosed with your letter is most helpful. However, it is noted that the names of a chaplain (designator 4105) and two Chief Warrant officers (designators 7646 and 8176) were included as members of [redacted]

25X1

The Central Intelligence Agency complement of officers does not include officers so designated. Accordingly, it is requested that their names be deleted from the list, in order to bring it into conformity with the Central Intelligence Agency complement.

With a view toward stability in our mobilization planning and to permit justification of expenditures of reserve training funds, it is expected that the names of members of [redacted] who are ordered to active duty for training with pay, will remain on our mobilization list for not less than one year, subsequent to the completion of such duty.

25X1

In further reference to the information listed in the enclosure to your letter, it will be necessary as stated in Assistant Secretary Pratt's letter of 10 February 1955, to indicate the specific mobilization billet and reporting date for each reserve officer on our mobilization list.

Considering the over-all number of officers to be provided by the Navy to the Central Intelligence Agency within the 30 days following the commencement of mobilization, it is apparent that [redacted] would be the source of only a small increment of the total. As to the considerable number of other appropriately qualified officers required by the Central Intelligence Agency upon mobilization, there is no information available in the Bureau of Naval Personnel upon which to base selection and assignment. It is, therefore, requested that explicit Naval Officer Billet Classification Codes and appropriate descriptive billet titles be furnished for each billet in your complement from which we may develop a realistic and practicable Authorized Allowance/Complement Form for the Central

Intelligence Agency. In the event of mobilization, the assignment of appropriately qualified officers to billets in the Agency would be entirely dependent upon the availability of the above information. Further, it is submitted that if additional naval reserve officers in your employ were made available to the Navy for mobilization assignment to the Central Intelligence Agency, your naval officer personnel requirements could be more readily fulfilled by reason of the reduced number of cases in which delay, incident to security clearances, would be involved.

Your interest and cooperation in Naval Reserve matters are greatly appreciated.

Sincerely yours,

Lt. General C.P. Cabell, USAF
